### **Education Lottery Teaching Scholarship Grants Program**

#### **I. Synopsis:**

During the 2001 legislative session, the General Assembly approved the South Carolina Education Lottery Act. One provision of this act provides that teachers who hold a professional certificate and teach in the public schools of the State will be awarded grants not to exceed \$1000 per year to attend the State's public and independent colleges and universities for the purposes of upgrading existing core content area skills or obtaining a Master's Degree in the teacher's core content area (see definitions below). The act further stipulates that if there are insufficient funds in the Education Lottery Account to provide the grant to each eligible recipient for a particular year, priority must be given to those classroom teachers (i.e., not administrators, counselors, media specialists, or other support personnel) whose teaching areas are critical need subject areas as defined by the State Board of Education.
